

Reported Asian Hate Crimes in the New York City Metro

As of May 6th, 2021

In the last five months, the Asian American News has received 51 hate crime reports targeting Asian people. According to proximity analysis, Manhattan Island has the highest concentration of reported incidents, accounting for 62.7 % of Asian hate crimes since January. It is important to note that hate crimes against people of Asian descent are significantly underreported, with the actual number of incidents estimated to be much higher.
